

Voice from the Netherlands

"225 years ago, (1789-2014) the democratic principle of consensus, the idea of the general will (la volonté générale) was for the first time, with broad consensus, published in the human rights of the modern (Article 6). It should therefore be a day of remembrance. The moral, natural, sovereign irreversible human rights are a great good of modernity. To protect them, implement, maintain and to commemorate them should be public domain ". In the year 1914 we also forgot the 125 year anniversary of Human Rights (1789-1914) to commemorate. Are we repeating it again?"

OPEN LETTER

Berlin/Rotterdam, 22nd December 2014.

Free trade with U.S.? Europeans balks at lack of morals in TTIP

Dear Mr. Daniel Hamilton Esq.,

The "fundamental problem" of your discourse: **"The Geopolitics of TTIP Repositioning the Transatlantic Relationship for a Changing World"** is the lack of morals. The goal of TTIP is to change the world by the privatization of the natural biodiversity through the patents of the pseudoscience "GENOMICS", protected by the Codex Alimentarius of the United Nation.

This change has been already announced by the former Dutch Queen Beatrix in her Christmas speech of the year 1992, after the United Nations Conference on Environment and Development (UNCED), also known as the Rio Summit, of 1992. **Quote:** "We should find the transition to a society with a new sense of norms and rules that are commonly held on to" **Unquote** (Norms means obligation; rules mean values).

GENOMICS generates only exclusive profits for the anonymous huge shareholders of the multinationals and hedge funds. That means for the very rich. They get more money and more power. They are the new masters over the new knowledge of the new artificial biodiversity through the technique of genomics.

It means a new absolutism, the worst in human existence and history. It means an serious attempt to deduce the knowledge of the parts from that of the whole through Genetic technique, Cisgene technique, Nanotechnology and Andragogy, for the sake of privatization of natural biodiversity including human beings' organs and behaviour (andragogy): **"Intimate technology - The battle for our body and behaviour"** (Andragogy) by Rathenau Institute -Netherlands by **"Science without borders -Holland"**.

The European Court of Justice (**ECJ**) opens door, without any respect for **"sovereignty of the people"**, to some **stem cell patents"** Reuters 18th December 2014. With other words this change is not related to the law or man as nature. It means there is something wrong in our relationship between high nobility (Council of Europe), the elites, the officials, the military, justice and reality.

You mentioned not a single word what people and the taxpayer think of this change. With other words, between the ideas of **TTIP** and the people there is a gap. There is no relation anymore to the historical genetic determined reality of the criterions of democracy of the modern regarding the understanding **"sovereignty of the people"** enforced during the European Revolution of the years 1789 and 1848.

For the people, that makes **TTIP** to "unnatural liberty". The fundamental understanding **"sovereignty of the people"** of the year 1848, invented by Jean Jacques Rousseau, for freedom of association for opinion-forming processes, is the main criteria to be followed when framing laws, law changing, war decisions, and other political questions and was a real contract between the people and its chiefs. Nowadays the understanding of "chiefs" is the 47 Heads of State represented in the Council of Europe in Strasbourg, with Secretary General Mr. Thorbjørn Jagland, as keynote speaker.

Rousseau's consensprinciple the idea of the general will of reason (**la volonté générale**) is equal to the own will of "agreements on informed consens for responsibility", the supreme control of the "common will". The consensprinciple of the idea of the general will (**la volonté générale**) was also a real contract between the people and its chiefs. It was with broad consensus obtained in the first Human Rights of the modern of 1789 under article 6.

It now seems that the **"high nobility"**, represented in the council of Europe, for the third time will terminate the contract with the people secretly. It means the people have to deal again with the problem of immorality. Freedom without moral freedom is impossible. That is the reason that **TTIP** is not in the hearts of the European men.

The historical genes of history of the *volonté générale* - you will find them in understanding „**mens una**“ by Spinoza. It means **“one mind”**, similar to the understanding **“consens”**, similar to **“reason”**. Rousseau wrote, **Quote**: I am in search of the right and of reason, and I do not argue about facts” **Unquote**. This as Rousseau said is a **“regulative idea”**, that means in my opinion a **“realpolitik of reason”**, instead of the immoral Realpolitik of populism of the modern of the year 1853, the mirror of the understanding **“Capitalism”**, as it has been invented by August Ludwig von Rochau.

The idea of the *volonté générale* is protecting our collective values, the **“summum bonum”**, the supreme instrument to control the parliaments and their lobbyists and the high nobility represented by the 47 Heads of State in the Council of Europe in Staatsburg, with key note speaker Secretary General Mr. Thorbjørn Jagland. It means the protection of **“the highest good”**, equal to the protection of our collective values, similar for the understanding **“general interest”**.

The problem of the nowadays **“democracy”**, which devaluates itself in a **“system crises”**, is, that there is no fundamental responsible informed consens about laws anymore. Moreover the Human Rights Council Advisory Committee of the United Nations abolished the institutional Human Rights of the year 1948 in the year 2011, without **“sovereignty of the people”** and despite the new ethic after World War II: **“never war again”**.

To make this possible the invisible power in being, need a technique for subliminal behaviour change of society. This for many people is the unknown understanding of **“andragogy”** (German: Andragogik). Andragogy, mentioned the first time by Alexander Kapp (1833), renewed by Rosenstock-Huessy in the 1920s, is a behavioural change technique, organised by semantic manipulations within the semantic universe of the linear time. Therefore they use the cosmic will of populism of the modern and nowadays also populism of the second modern like Piketty, whistleblowers, websites and Fakebook & Co, in combination with subsidized populist **“aesthetic experimental”** technique.² **“The devil is in details”**. **The details are in the andragogy”**.

The British thinker Bertrand Russell warned against **“andragogy”** in combination with GENOMICS as a big danger, already in the year 1952 in his book **“The Impact of Science”**.³ It is synonym for the obedient, caused by education (**“Wider den Gehorsam”** Arno Gruen. Kapitel: Staatstheorien – Macht – Strukturen des Gehorsams/Seite 73, synonym für Andragogik).

This affects on human, Spinoza calls that man a slave who is led solely by emotion or opinion. The European individual people are afraid. Yet the **“sovereignty of the people”**, especially the individual elderly people said very clear **“NO” to TTIP**, which means a very clear **“NO”** to the high nobility of the Council of Europe with keynote speaker Mr. Thorbjørn Jagland. Please pay attention to the fact that people in Europe don't trust any longer the parliaments, nor political parties, nor even the public intellectuals, it means the opinion makers, of the ngo's. Everybody is listening now to Immanuel Kant. He said: **“Have courage to use your own understanding!”**

This kind of technique by andragogy organised unnatural behaviour and obedience and made it possible that people have the capacity to do evil,⁴ if instructed, as we saw in the Holocaust and World War II. Nowadays we see more and more, that people round de clock are obedient to digital commandos including an addiction to Handys, Smartphones and Fakebook & Co, synonym for the understanding **“Panopticon”**.⁵ That means violation of privacy, contrary to article 17 of the International Covenant on Civil and Political Rights (**ICCPR**).

This new unnatural behaviour, to live in a digital **“Panopticon”** is necessary to protect the **“high nobility”**, elites and their officials for their evil GENOMIC patents. For this they developed the **“tetras politica”** by Richard de Mulder, Erasmus University Rotterdam (Netherland).

Another problem is the abolishing of the fundamental legal right of each man to defend the general interest as his own interest, by themselves against the state, called **“actio popularis”**. It is the other side to the **“nemo tenetur principle”**,* of the same medal. Nemo tenetur Principle means right and duty to silence. Actio popularis means right and duty to speak for the fundamental responsible informed consens, **“sovereignty of the people”** for the whole society for the general interest.

This right and duty by **“actio popularis”** is in the Netherlands, as an early bird country, changed into the French maxim **“pas d'intérêt, pas d'action”**, similar to the oldest theory the Roman **“interest theory”** (Ulpian) and synonym to the French understanding **“la volonté the tous”**, on 1st July 2005. The European Court of Human Right legitimized this with an abstract incomprehensible **“statement”** of court ruling synonym for the understanding **“jurisprudence”** without subject. Only **“Verlinden against the Netherlands”** has been mentioned. Petition: ECHR-LN1d11.0R (CD1) AVS/svl. Number 3636/09, 16th November 2010.

A society without sovereign Humans Rights and without actio popularis, without nemo tenetur and without freedom of association for opinion-forming processes, means a society without exemplary jurisprudence (Quaestio disputata by Thomas von Aquino), means a society without any **“sovereignty of the people”** as the situation of democracy nowadays in Europe is.

¹ Examples of aesthetic education can be seen: “Oskar Schlemmer –visions of a new world” in Stuttgart. Nowadays: The subsidized quest to create horrible ugliness as education “Mik, shows man as powerless ant” Amsterdam <http://www.nrcreader.nl/artikel/1091/mik-toont-de-mens-als-machteloze-mier>. Modified art: “Lesbianism and GM (TTIP) fish” by Lynn Hershmann Leeson. Etcetera...etcetera...

² Stefan Jonson “Crowds and democracy” – “The idea and image of the masses from revolution to fascism”.

³ Andragogy related with the effects of Genomics. Quote “It is to be expected that advances in physiology and psychology will give governments much more control over individual mentality than they now have even in totalitarian countries.... Diet, injections, and injunctions will combine, from a very early age, to produce the sort of character and the sort of beliefs that the authorities consider desirable, and any serious criticism of the powers that be will become psychologically impossible. Even if all are miserable, all will believe themselves happy, because the government will tell them that they are so.” End of quote Bertrand Russell - The Impact of Science on Society, 1952.

⁴ An example shows the Exhibition “Territory” in Rotterdam (Netherlands)

⁵ The digital Panopticon (Prison): An idea of Jeremy Bentham (1791) is a concept to control a new unknown totalitarian system. www.panopticondefilm.nl announced by the Dutch Prof. Dr. Paul Frissen in 2005. (“Hard op weg naar de totalitaire samenleving”. Prof. Dr. P. Frissen/CDA NRC 20/10/2005/p6). ANOPTICON: The documentary about your privacy shows you face recognition camera. ENGLISH/DUTCH <http://www.youtube.com/watch?v=FUyBOTs6JE#t=206>

It means **GENOMICS** generate again types like Dr. Josef Mengele and negative eugenica. It means that we are back again in the semantic universe of the linear time beginning of the 18th century. It was the beginning of the Idea of Progress and the race theory of the high nobility, the idea that people, animals and plants, are manufacturability for the very rich. Nowadays we call this "**GENOMICS**" protected by the **Codex Alimentarius** of the United Nations.

To make all this stupid amoral stuff possible the high nobility of the United Nations and the council of Europe in Strasbourg, as I said before, abolished the institutional Human Rights of the year 1948 in the year 2011. **Quote** "Great nations need organizing principles, and "Don't do stupid stuff" is not an organizing principle," Clinton told Jeffrey Goldberg in the interview conducted early last week and published Sunday". **Unquote** by Hillary Clinton.

It is for every body clear, except the Dutch self-styled whistleblowers and self-styled website ngo's and self appointed new media, that she implicit said it was stupid that the United Nations abolished the institutional human Rights of the year 1948 in 2011, acting against great nations organizing principles. It is clear that every body knows that without **sovereign Human Rights** our children, black or white, with or without religion, don't have any future.

Parenting with style,⁶ being conscious of the needs of future generations, and more and more people realise now, that they have to reclaim the moral, natural, sovereign, irreversible, Human Rights of the year 1789. That means also **article 2**: "Right for resistant by repression" the political influence of Spinoza. And **article 6**. the consensprincipe the general will of reason von Rousseau (La volonté générale)

The consensprincipe of the general will of reason (La volonté générale) is the landmark for all the people. It is the landmark for the power of the population. **Malcolm X Speaks in 1965: "Power never takes a back step - only in the face of more power". Only the consensprincipe by the idea the general will of reason by Rousseau (La volonté générale) is a greater power,** as it was mentioned in article 6 of the moral, naturally and sovereign Human Rights of the year 1789.

Those who speak in public or writes can be misunderstood, so I consider myself ready for more information. In the meantime, I remain yours faithfully as your servants for the general public good.

Foundation for the prevention of Abuse of Genetic Manipulation (VoMiGEN). "I fear (TTIP) the day that technology will surpass our human interaction. The world will have a generation of idiots." (Albert Einstein).

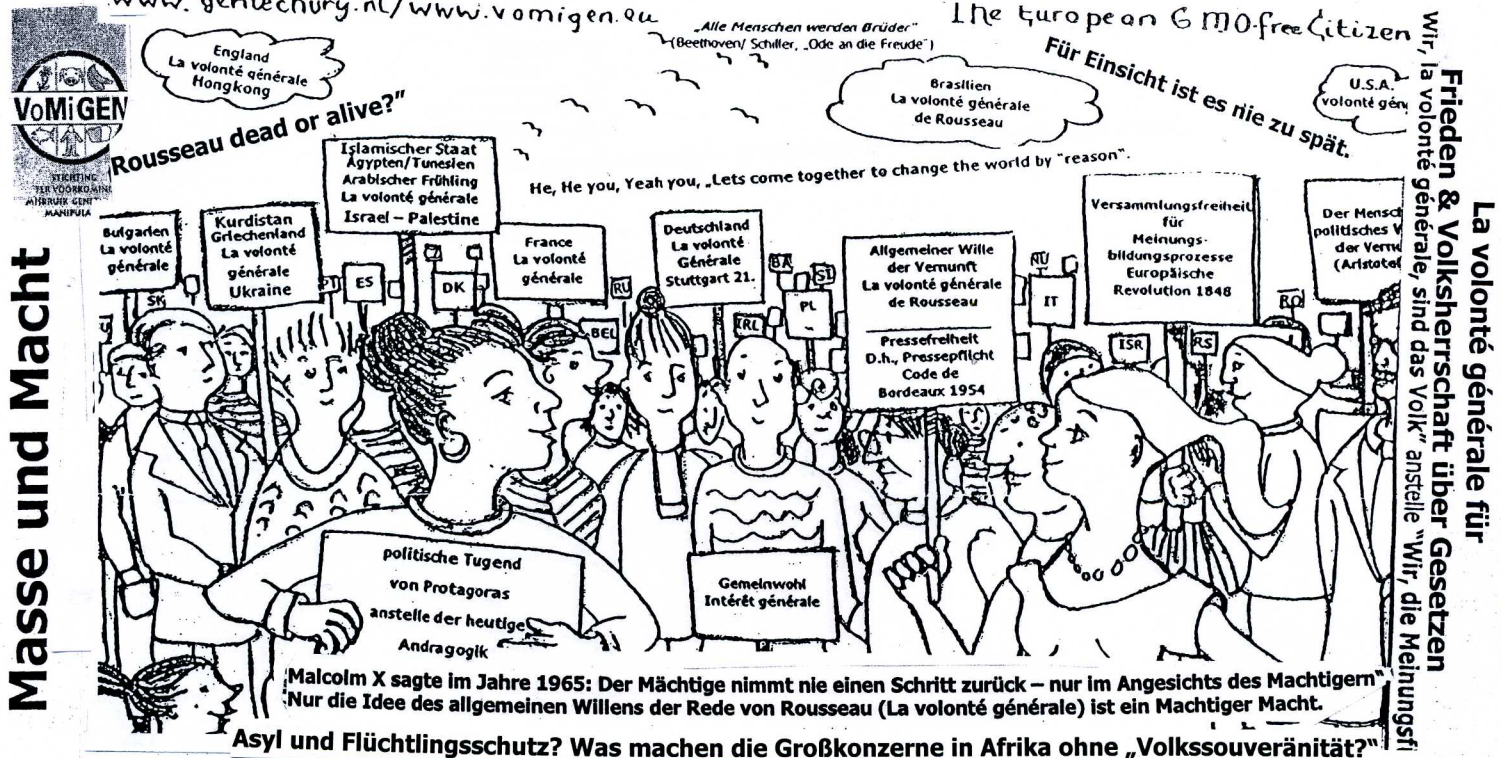

Robert A. Verlinden, alias Emile Rousseau of the second Modern

***PS. CIA Torture Report Message: "Collapse of civilization".**

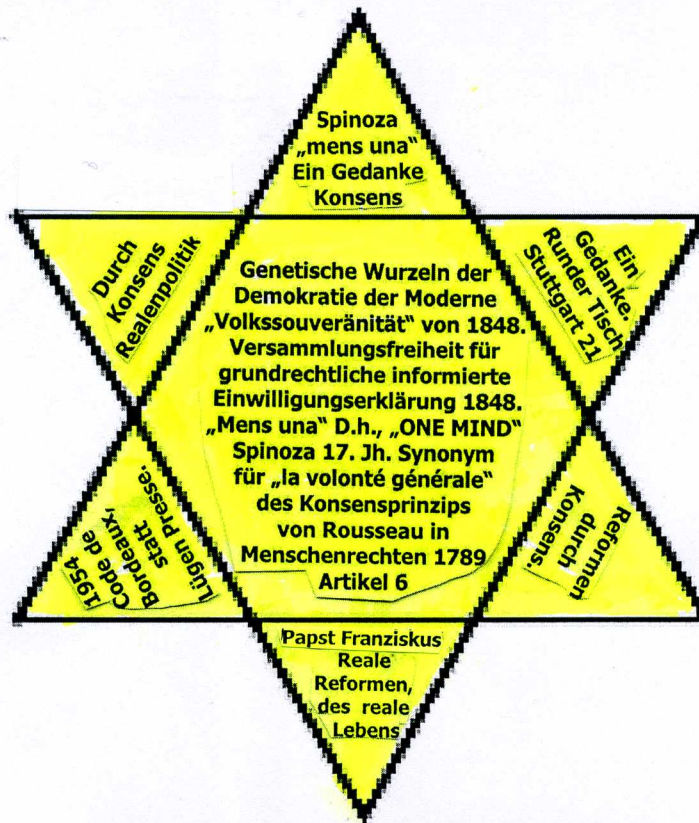

The Principle of nemo tenetur (The Latin brocard: "nemo tenetur se ipsum accusare" means "no man is bound to accuse himself") is an important part of the Human Rights of 1789. It means that no person shall be compelled in any criminal case to be a witness against himself. This principle had been abolished by Hitler in the year 1937. (Stevens, The nemo-tenetur Principle in criminal matters. "From right to silence into container concept" 2005 / page 146). This "nemo tenetur principle" was not restored by the elites of the United Nation and the high nobility, the 47 Heads of State representing the Council of Europe in Staatsburg, with nowadays key speaker Mr. Thorbjørn Jagland, after the Second World War. The understanding "nemo tenetur" is unknown to many people and especially the young soldiers, prison guards, including **Amnesty International** employees. That is the quintessence of nowadays torture. This disturbs our fundamental values, such as democracy, human dignity and human rights in civil society. Please....."not again".
