**The "demos" of Europe say no to GMO. Carnation SNIF C/NL/13/01: Interview with Jean Jacques Rousseau.**

Dear Mr. President

Regarding the introduction of genetic manipulated organism (GMO) and the problems with Banks, like the sustainable TRIODOSBANK in the Netherlands,<sup>1</sup> we are delighted to meet the spirit of keynote speaker Jean Jacques Rousseau again. That means the radical enlightenment of Rousseau and Spinoza as mentioned in the first Human Rights of 1789 by Marquis de Lafayette, article 2 and 6, as a "**consent democracy**". The best historical facts for Europe and worlds further.<sup>2</sup> It is the only chance to save the values of our existence and planet and to keep the people free of half truths and populism:

**Quote:** *"On the 27 of August 1789, the Assembly proclaimed the Declaration of Human Rights. It was proposed by Lafayette, who had been impressed by the Declaration of Independence of the US. In Article 2 it states: "These rights are liberty, property, security and resistance against oppression. Article 6 states: "The law is the expression of the 'general will of the people" (this refers to the volonté générale from Rousseau and not to the will of the majority)."* **End Quote.** Dietrich Schwanitz, "Education. "Everything you need to know" p158.

**Comment article 2** "Spinoza also stressed repeatedly that arming of civilians is the only way for them to resist their ruler if being suppressed" "Administrative innovations" from Spinoza scholar W. Klever/ (noot 102/p64)

**Comments to the Carnation SNIF C/NL/13/01:** Tetracycline is a regular used antibiotic and should not be used for this kind of useless purposes. The GMO carnation is not the same as natural carnations. They have different colours, and *significantly fewer filaments and viable anthers than the recipient, and significantly shorter filaments* zie: [CarnationSNIF C/NL/13/01](#). **Quote:** *"(d) Other differences: The primary difference between SHD-27531-4 and the recipient plant is in the colour of the SNIF SHD-27531-4 11 flowers, because of the production of delphinidin in the GMHP. SHD-27531-4 produced significantly fewer filaments and viable anthers than the recipient, and significantly shorter filaments. Pollen from SHD-27531-4 was less viable than pollen from the parental recipient line"*. **End Quote.** Miep Bos. spokeswoman of the European GMO-free Citizens. **See link :** [http://gmoinfo.jrc.ec.europa.eu/gmc\\_browse.aspx](http://gmoinfo.jrc.ec.europa.eu/gmc_browse.aspx) .

Conformity the song of the earth by Michael Jackson, the demos of Europe and the world say no to GMO;

Cameron announced that the European Demos doesn't exist. **Quote:** *"There is not, in my view, a single European demos. It is national parliaments, which are, and will remain, the true source of real democratic legitimacy and accountability in the EU."* **End quote.** EU Speech 2013. Please see our letter to Mr. David Cameron (Appendix I).<sup>3</sup>

The other problem of the understanding of population (demos) is that they are anonymous. However, the European Hymn "**All man become brothers**" (Beethoven/Schiller) gives the expression what the demos of Europe wants. It is one voice of

This bank only invests in listed companies on the stock exchange. This year they officially confirmed that they are not quite "green". (NRC 29/3/2013 p2, 28 and 29. Over the past couple of decades, important insights in our understanding of plant ecology have confirmed that plants, just like animals, communicate. <http://www.ceb.uwa.edu.au/research/plant> and <http://nl.wikipedia.org/wiki/Plantencommunicatie>

That means automatically that the introduction of GMO in the environment is in contrary with the Universal Declaration of Human Rights (UDHR): providing **Article 5:** Right to Liberty and Security. **Article 8:** Right to respect private- and family life. This includes the right of integrity of the body. **1<sup>st</sup> Protocol, Article.1** Right to peaceful enjoyment of property.

Please be so kind and read the jurisprudence of European Court of Human Rights. Petition 63079/10: **"Foundation for the prevention of Abuse of Genetic Manipulation"** (Appendix II). No subject and without arguments, facts, figures and expectations. Its means without any *"determinatio magistralis"*. Judge L. Lopez Guerra solely decides, in the period from 3<sup>rd</sup> January until 17<sup>th</sup> January 2013 with a reporter, that we are not admissible in our objection to the introduction of the GMO CARNATION<sup>4</sup> Jurisprudence without *"determinatio magistralis"* is in contrary of the general interest (**bonum commune**), contrary the general will of the demos and it is a **"contradictio in terminis"** with the duties of the International Covenant on Civil and Political Rights (ICCPR).<sup>5</sup>

In contrary with the *"trias politica"* and in contrary with the wishes of the Chancellor Angela Merkel,<sup>6</sup> shows this jurisprudence implicit that the non governmental private foundation **VoMiGEN** has been muzzled by the European Court of Human Rights, the private Court of the 47 Heads of State, inclusive Wladimir Putin, represented in the Council of Europe. The same what Wladimir Putin is doing with the Non Governmental Organisations is Russia. ("Putin laughs off topless protest, defends NGO moves". Reuters 8/4/2013).

However, the Dutch coming new King Willem Alexander, the industrial leaders and the expert keynote speakers should realize and understand that they are not allowed to suppress the people again as it was before the French Revolution of 1789. protected by the Codex Alimentarius of the UN/FAO, than the people have the legitimacy to vigilantism. To prevent this, you and your elite should consult the demos of Europe in advance.<sup>9</sup> This is only possible by the **"volonté générale"** of Rousseau and not by the **"volonté de tous"** of Jeremy Bentham (1748-1832) *cum suis*, the founder of the Panopticon.<sup>10</sup>

In quintessence it means the duties of the 47 Heads of State, including Wladimir Putin, represented in the Council of Europe in Strassburg with Mr. Thorbjørn Jagland as chairman. They only have three duties before accepting new laws. The obligations of the Heads of State, conformity the Social contract are: **1<sup>st</sup>**) The duty to respect the information from the thinkers of the anonymous people how they think about new laws, law changing, wars and other political questions (quaestio disputata), based on arguments, facts, figures and expectations. **2<sup>nd</sup>**) The duty to encourage the people to serve their duties for the general interest. **3<sup>rd</sup>**) The duty to warn people when they are coming into danger.

It is the only direction for an informed consent society. That means informing by consulting in advance instead of informing afterwards or not at all by populism of the majority principle of the friend services of the party politics for the real economy without moral and without ethic of 1853.

GMO is pseudo science. It generates a spaghetti biodiversity. It is against the general interest (**bonum commune**) and the general will (La volonté générale) of the people. It has nothing to do with reality. It only generates patents for the rich. That means the upper class of the elite. **The "demos" say no to GMO!** Regarding this subject Pope Benedictus XVI voiced in the Parliament of Berlin on 22<sup>nd</sup> September 2011 as follows:

**Quote:** *"If something is wrong in our relationship with reality, then we must all reflect seriously on the whole situation and we are all prompted to question the very foundations of our culture. Allow me to dwell a little longer on this point. The importance of ecology is no longer disputed. We must listen to the language of nature and we must answer accordingly. Yet I would like to underline a further point that is still largely disregarded, today as in the past: there is also an ecology of man. Man too has a nature that he must respect and that he cannot manipulate at will. Man is not merely self-creating freedom. Man does not create himself. He is intellect and will, but he is also nature, and his will is rightly ordered if he listens to his nature, respects it and accepts himself for who he is, as one who did not create himself. In this way, and in no other, is true human freedom fulfilled."* **End quote.**<sup>11</sup>

**We call again...and again... for the "general will" ('Frappe...frappe... toujours La volonté général de Rousseau').** That means a team of round table thinkers (The Thinkers Club), as it has been working until 2001 in the Dutch private **"EKO"** organisation **SKAL**, to bring all arguments, all facts, all figures and all expectations in daylight. This construction has functioned extremely well. It has been demanded by the movement of citizens **"Stuttgart 21"** (Dr. Heiner Geißler Süddeutsche Zeitung 7/10 und 13/10/10). And it has been claimed by the Prussian proletariat and farmers in the **"March Revolution of 1848"** for whole Europe.

Diet, injections, and injunctions will combine, from a very early age, to produce the sort of character and the sort of beliefs that the authorities consider desirable, and any serious criticism of the powers that be will become psychologically impossible. **\*\* "Press freedom" versus "Press duties"**

Press freedom means in quintessence: "**The freedom of silence**". This means half truths. "A half-truth is more dangerous than a lie." John Lukacs. It means for self-respecting independent newspapers not "press freedom" but "**press duties**". That means respect for the "Code de Bordeaux" of 1954.

**Declaration of western Principles on the Conduct of Journalists.**

"This international Declaration is proclaimed as a standard of professional conduct for journalists engaged in gathering, transmitting, disseminating and commenting on news and information in describing events.

1. Respect for truth and for the right of the public to truth is the first duty of the journalist.
2. In pursuance of this duty, the journalist shall at all times defend the principles of freedom in the honest collection and publication of news, and of the right of fair comment and criticism.
3. The journalist shall report only in accordance with facts of which he/she knows the origin. The journalist shall not suppress essential information or falsify documents.
4. The journalist shall use only fair methods to obtain news, photographs and documents.
5. The journalist shall do the utmost to rectify any published information which is found to be harmfully inaccurate.
6. The journalist shall observe professional secrecy regarding the source of information obtained in confidence.
7. The journalist shall be aware of the danger of discrimination being furthered by the media, and shall do the utmost to avoid facilitating such discrimination based on, among other things, race, sex, sexual orientation, language, religion, political or other opinions, and national or social origins.
8. The journalist shall regard as grave professional offences the following: \* plagiarism; \* malicious misrepresentation; \* calumny, slander, libel, unfounded accusations; \* acceptance of a bribe in any form in consideration of either publication or suppression.
9. Journalists worthy of the name shall deem it their duty to observe faithfully the principles stated above. Within the general law of each country the journalist shall recognise in professional matters the jurisdiction of colleagues only, to the exclusion of every kind of interference by governments or others."
